

D/T Graph Summary (Feb 5/09)

1. slope represents

2. horizontal line of slope = 0 represents

3. fast speed shown by

4. slow speed shown by

5. you are in front of the detector/reference point and moving away from detector/reference point → shown by:

6. you are in front of the detector/reference point and moving toward detector/reference point → shown by:

7. you are behind the detector/reference point → shown by:

8. you are behind the detector/reference point and moving away from detector/reference point → shown by:

9. you are behind the detector/reference point and moving toward the detector/reference point → shown by:

10. displacement is shown by:

11. distance traveled is shown by:
